Air Pressure

Pression de gonflage

Presión de aire

Pressione di gonfiamento

Luchtdruk

**D**

Die angegebenen Luftdruckwerte (bar) gelten für Reifen von Continental, bezogen auf den kalten Reifen. Sie sollten mindestens alle zwei Wochen überprüft werden. Bei ausschließlicher Autobahnfahrt empfehlen wir auch im Teillastbereich den angegebenen Vollastluftdruck. Die Luftdruckwerte gelten für Geschwindigkeiten über 160 km/h. VA = Vorderachse / HA = Hinterachse.

**GB**

These inflation pressures (bar) apply to tyres of Continental when they are cold. They should be checked at least once every fortnight. For strictly motorway driving, we recommend the full-load inflation pressure in the partial-load range as well. The pressure values apply to speeds in excess of 160 km/h (100 mph). VA = front axle / HA = rear axle.

**F**

Les pressions de gonflage indiquées (bar) sont valables pour des pneus froids de Continental. Elles doivent être contrôlées au moins tous les 15 jours. En cas de circulation exclusive sur autoroute, même en cas de charge partielle, nous recommandons une pression de gonflage identique à celle préconisée en cas d'utilisation à pleine charge. Les pressions de gonflage sont valables pour les vitesses supérieures à 160 km/h. VA = essieu AV / HA = essieu AR.

**E**

Los valores de presión de aire indicados (bar) son válidos para los neumáticos en frío de Continental. La presión de aire deberá ser controlada por lo menos cada dos semanas. Para conducción por autopista recomendamos la presión de inflado de carga completa aunque el vehículo vaya en carga parcial. Los valores de presión de aire son válidos para velocidades superiores a los 160 km/h. VA = eje delantero / HA = eje trasero.

**I**

I valori indicati per la pressione di gonfiamento (bar) si applicano a pneumatico freddo de Continental. Dovrebbero essere verificati almeno ogni 2 settimane. Per guida continua in autostrada, raccomandiamo la pressione per carico massimo anche per un carico parziale dell'autovettura. I valori di pressione dell'aria valgono per velocità maggiori di 160 km/h. VA = assale anteriore / HA = assale posteriore.

**NL**

De vermelde luchtdrukwaarden (bar) zijn van toepassing op de koude buitenband van Continental. Zij dienen minimaal één keer per twee weken te worden gecontroleerd. Voor transport dat uitsluitend via autosnelwegen geschiedt en waarbij de laadcapaciteit niet maximaal benut wordt, bevelen wij eveneens de vermelde maximale oplaaddruk aan. De luchtdrukwaarden gelden voor snelheden boven 160 km/h. VA = Vooras / HA = Achteras.
